HIGH PERFORMANCE COPIERS DESIGNED TO MATCH YOUR NEEDS

Your nearest XES representative is

3001

The new 3001 has been developed to bring you everything you demand from a low volume engineering copier. It is compact, attractive, easy to use, and very affordable.

3001 KEY FEATURES

- Automated document handler for multiple copies
- +/- 0.5% scale accuracy
- Recall feature automatically restores settings from previous job
- Partial copy to reproduce only the image area you need.
- Up to 10 copies from a single original at the rate of 2 A1's/1 A0 per minute
- Long Copy to enable easy reproduction of very long, rigid or fragile documents
- Modern appearance and quiet operation for use in any professional environment
- Electronic Auditron option

3030

The point-of-need plain paper copier, with walk-up convenience, automatic operation and user friendly graphical interface.

3030 KEY FEATURES

- Dual language interactive message display gives operating status and maintenance instructions
- Programmed job selection to quickly set up and enable frequently used job applications
- On-board electronic Auditron with capacity for 250 accounts
- Fully automatic multiple copying
- Up to 15 prints from a single original at the rate of 4 A1's/2 A0's per minute
- 'Sets' mode to reproduce collated drawing sets
- Partial copy to reproduce only the image area you need

THE 3000 SERIES WIDE FORMAT COPIER FAMILY

The XES 3000 Series of wide format engineering copiers has always had a reputation as the industry benchmark for quality, efficiency and reliable performance. And because we have your specific business needs in mind, we are launching 2 new additions to the 3000 family. Now there is a copier that is just right for you, whatever your copying volume or the size of your engineering enterprise.

The new Xerox 3001 introduces new features, functionality and advanced design to low volume copying. For price, performance, and ease of use,

it redefines its class. The Xerox 3040 is a two roll, mid-volume copier which offers more productivity and features than any competitive copier!

Choosing the right copier is easier than ever

Finding the right engineering copier without compromising your needs will make you more productive, and your business more profitable.

You will find out quickly by matching the scenario that is most like your own in the XES 3000 family quick quiz.

XES 3000 Family Quick Quiz

	A	B	C
1. What is your average monthly volume requirement?	Up to 599 A1's/Mo	600-1749 A1's/Mo	1750+ A1's/Mo
2. When is your peak production?	Same every day	Several days per week	Several days per month
3. How many people work in your location?	Up to 49	50-99	100+

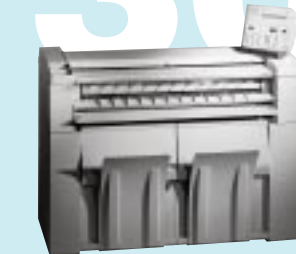

If you chose mostly **A**'s, the 3001 is your best choice.

If you chose mostly **B**'s, the 3030 or 3040 is your best choice.

If you chose mostly **C**'s, the 3050 is your best choice.

3040

Incorporating more features than any other two-roll wide format copier in its class, the new 3040 is the industry benchmark.

3040 KEY FEATURES

- Dual language interactive message display gives operating status and maintenance instructions
- Two on line media feed rolls plus manual sheet feed bypass
- Auto media switch changes to the next available media roll when roll in use becomes depleted
- Fully automatic multiple copying
- On board electronic Auditron with capacity for 250 accounts
- Up to 15 prints from a single original at the rate of 6 A1's/3 A0's per minute
- 'Sets' mode to reproduce collated drawing sets
- Partial copy to reproduce only the image area you need

3050

When your copying needs extend up to the 3000m² per month range, the 3050 is unbeatable for ease-of-use, point-of-need productivity and crisp, accurate images.

3050 KEY FEATURES

- Dual language interactive message display gives operating status and maintenance instructions
- Three on line media feed rolls plus manual sheet feed bypass
- Auto media switch changes to the next available media roll when roll in use becomes depleted
- Fully automatic multiple copying
- On board electronic Auditron with capacity for 250 accounts
- Up to 15 prints from a single original at the rate of 6 A1's/3 A0's per minute
- 'Sets' mode to reproduce collated drawing sets
- Partial copy to reproduce only the image area you need
